

Workshop of the Wolf
Progressive and experimental rock

Workshop of the Wolf is a band from Gothenburg Sweden, with roots in 70's progressive and experimental rock music. They deliver exiting music with a mix of the somewhat odd, dirty and askew, but at the same time beautiful, with influences from bands such as King Crimson and Blue Öyster Cult.

The band has released an EP followed by the debut album "Workshop of the Wolf" through Record Heaven/Transsubstans Records. New album "The Waves" was released in late 2019, also through RecordHeaven/Transsubstans Records.

"Swedish oddbods Workshop Of The Wolf sound almost as unorthodox as their tag, but don't translate that as 'do not buy'. Bumpy, grindy and gravelly as it gets, their music gives into some gusty progressive mega-ludes, in the sweet old seventies taste."

- Dave Attrill, Metalliville Webzine
